CLIENT PHOTOGRAPHY GUIDE

Labiaplasty.

DO I HAVE TO TAKE PHOTOS?

It's normal to feel anxious about taking and submitting personal photos. However, they are an essential part of your Plastic Surgery journey and are used in a number of ways:

- ☑ As a planning tool for your Surgeon
- ☑ To inform your Surgical Quote
- ☑ As a baseline to measure your results

Trust us. No one is more understanding of the necessity of maintaining privacy throughout your plastic surgery journey than we are. Like other personal client information collected during your journey, your photos remain confidential.

PHOTOGRAPHY INSTRUCTIONS

To assist your Assessment, please:

- ☑ Ensure photos are clear and in focus
- ☑ Take the photos in good lighting with minimal shadows on the body.
- ☑ Ensure the area is clean.
- ☑ For optimum visibility, please ensure the pubic area is clean and shaven
